Landscapes Of Eternity

LES COULEURS DU SON. [CD/DL](#)

The French flautist and vocalist draws on her solo travels across five long tracks evoking northern Indian landscapes. Over tanpura drones and teeming tabla, her voice entwined with singer Samrat Pandit, Jalal's impassioned improvisations range from explosive (Tears In Dehli's Fog) to deeply sensual (Soft Rain On A Silent River), with an underlying mysticism redolent of John Coltrane and Yusef Lateef.
